

## **Open Letter to MPs Roberts, Dominello**

**Dear Sir,**

**Open letter to Minister Dominello who is responsible for the Hunters Hill contaminated site and Planning Minister Roberts, our local member.**

Not more hollow promises! You have repeatedly promised to remove the material in Hunters Hill but now you propose to permanently encapsulate the contamination on-site.

Your government committed to the people of NSW following the 2008 Parliamentary Inquiry to remove all the contaminated material to appropriate storage.

This decision was informed by expert opinion as well as best remediation practice.

What possible reason do you have now to abandon this promise?

You announced in February that the NSW government had

reserved \$30 million to remediate this site.

Where is this in the budget papers you recently presented Minister Dominello? Was this another hollow promise?

Thank you TWT for exposing the failure of this government to keep their promises.

Act now and fulfill your promise!

**PHILIPPA CLARK  
President, Nelson  
Parade Action Group**

## **Tongue tied politicians**

**Dear Sir,**

**The ABC Four Corners program on Monday evening exposed the unpalatable (no pun intended) practice of tongue - tying race-horses.**

No animals should ever be subjected to this type of cruelty with one exception of course, LNP politicians.

**JOHN FRYER  
Ryde**
