# Nats Trumped in Orange by-election **GRANT GOES!**

NSW Nationals Leader and Deputy Premier Troy Grant has paid the price of sheepishly following dictator Liberal Premier Mike Baird on the road to oblivion over forced amalgamations of local Councils and the execution of Local Democracy.

Grant announced his resignation yesterday before his colleagues had the chance to publicly sack him for leading them to the worst ever by-election result in NSW history!

No Government held seat in the State can now be considered safe from the wrath of the electors who are fed up with the arrogance and dictatorship of the premier.

# Baird Next?

Baird and Grant thought they had appeased voters when they tearily admitted they were wrong, wrong, wrong in banning greyhounds.

But the electorate's anger runs deeper especially with the forced amalgamations of local councils into mega cities and their lies and false claims associated with them.

Plus the nanny state laws, closure and sale of the Powerhouse Museum, threats to public and crown lands with overdevelopments, city chaos with trams and desecration of hundreds of heritage trees especially the Anzac memorial trees in Anzac Avenue and threats to Tafe plus the general lack of community consultation with an arrogant "big brother knows best" attitude.
